HEGELE LOGISTIC INSTALLS FIRST CYBERKNIFE IN CENTRAL AMERICA

July 2011 – Monterrey, Mexico – Chicago-based service provider Hegele Logistic, LLC has installed the first Cyberknife in Central America. The medical device allows for non-invasive treatment of both cancerous and non-cancerous tumors anywhere in the body.

The Cyberknife was installed at Christus Muguerza Hospital in Monterrey, Mexico. It is the first clinic in the region to offer treatment with the robotic radiosurgery system. "We are proud to be part of this milestone in the hospital's history," says Christoph Sitzer, President and CEO of Hegele Logistic, LLC. The treatment room is equipped with virtual windows and ceiling to promote relaxation and stress relief in the patient. The team at Christus Muguerza Hospital is very excited and already has a long waiting list for patients.

About Hegele Logistic, LLC

Established in 2004, Hegele Logistic, LLC provides highly customized logistics along the supply chain for high tech manufacturers that go beyond the scope of shipping, storage, and packaging. Based on the commitment to achieve the highest degree of customer satisfaction, Hegele's service portfolio includes value added services such as installations, repairs, and refurbishment of high tech equipment granting single source reliability to its international clients. Headquartered in Wood Dale, IL, the ISO 9001 certified company maintains further branches in Dallas, TX, Omaha, NE, and Tucson, AZ. Hegele Logistic, LLC is part of the Hegele Group with more than 2,000 employees worldwide.

affiliation to the Catholic doctrine. The Group's origin goes back to 1934 when the prestigious Hospital MUGUERZA® was founded; in 2001 it created an alliance with the CHRISTUS® Health system. To date, Grupo CHRISTUS MUGUERZA® operates seven hospitals: three in Monterrey (Alta Especialidad, Hospital Conchita and Sur), Saltillo, Chihuahua, Reynosa and Puebla. Its Alta Especialidad hospital was the first in Mexico to become certified and re-certified with the "Gold Seal of Approval" by the Joint Commission International. It also has a number of Convenient Medical Centers, a high-technology 7-24 ambulance service, physical therapy centers, and addiction treatment and mental healthcare centers. Through the Fundación Adelaida Lafón, and its five clinics and 1 hospital located in marginalized areas, the Group provides quality healthcare services to underprivileged communities and has attended more than one million people since it began activities in 2001. www.christusmuguerza.com.mx
